Cedric Douillard

Full Stack Developer

New York City College of Technology has helped me in my Sofware development journey and prepared me for the necessary skills that is demanded in this industry. Now I am an all-around web developer with a great eye for design and good knowledge about creating an interactive and responsive application on the web.

HTML5   HtmlEmail   CSS3   JavaScript   MySQL   jQuery   React.Js   REST APIs   XML   Typescript   PostgreSQL   MongoDb   NodeJs   Python   Git   Cloud Computing   Jest   Webpack

PERSONAL PROJECTS

New Jersey Anchor-CRUD Application (06/2022 - Present)

- Link to app 'https://njanchor.com/accounts/login' ⊡
- Application is entirely built by me, and it is meant to replicate and enhanced how an organization might handle news or stories told by professional journalists and also stories or blog told by non-journalist.
- Developed using React, Redux, NodeJs, PostgreSQL and DigitalOcean Services(Spaces, Databases, Droplets).
- Ability read, comment, organize and even listen(Google Cloud Platform Speech-to-Text API is being used) to articles.
- Dedicated page for account customization such as uploading your own avatar, personalize how you view news topics, changing the weather to a specific State and City and more.
- Dedicated Studio Page for writing, organizing and even follow how a specific article is performing in terms of Viewership, like ratio or interest (Recharts API is used to showcase the timeline of each event).

Portfolio (09/2022 - 10/2022)

- Link to app 'https://cedricd2268.github.io/cedric-portfolio/' ⊡
- Developed using React and Bootstrap.
- Portfolio represent my experience and dedication on developing web-applications.
